**Purpose (and Explanation) of the Proposed Amending By-Law 09-06**

- The Public Meeting was held for persons to represent their interest in relation to the closing of a portion of Goodfellow Lane and said portion conveyed to William Goodfellow.

Mr. Steven Courneyea was present to speak to the application. His question surrounded the actual geography of the closure so that it would not affect ingress and egress to his property. The Clerk showed Mr. Courneyea that the closure of the road is at the northerly extreme of his property and his access is from the road to the south. He appeared satisfied.

Norm and Sean Storms were present to speak to the application. Their concern is that the road allowance will no longer be a “through” road allowance and that people will come in from the north and come across a gate as they travel south. This could cause problems when people turn around or injury if they are travelling too fast and they encounter a gate. The Council explained that the installation of a gate would be a matter for the Goodfellows to consider and take responsibility for. Council agreed that it would be a good idea to put a sign at the north end of the road allowance saying that it was no longer a “through” road allowance and that traffic could not make complete passage. This appeared to somewhat alleviate the Storms’ concerns.
